The Practical Solution to Improve Efficiency and Compliance

Work Without Limits in Real-Time

Other Products of e-PlanSoft

A customizable intake portal that pairs seamlessly with e-PlanREVIEW, providing agencies the ability to accept documents, track project progress, communicate with applicants, gather form submissions, and return plan review feedback.

Customers and applicants uploading bad documents? Save time with PDF Scout. Embedded into e-PlanREVIEW and goPost, PDF Scout analyzes PDFs and flags file issues at the point of upload for your applicants to resolve before plan review begins.

e-PlanREVIEW® is designed for building and safety, planning, and public works agencies. This web-based electronic plan review solution provides a collaborative, simultaneous review process that allows multiple users to perform the review concurrently, making the review process faster and more accurate.
